

Dear Hiring Manager,

I am excited to apply for the Backend Developer (PostgreSQL & Python - GIS) position at HOCHTIEF PPP Solutions GmbH. With a strong background in backend development and a passion for building efficient systems, I am eager to contribute to your mission of shaping the future of urban infrastructure.

In my professional experience spanning over 9 years, I have developed and optimized many backend systems using C++, Python, JavaScript, TypeScript, implementing robust API designs with frameworks such as Flask and FastAPI. My expertise in PostgreSQL, has allowed me to efficiently manage and process complex data. I don't have extensive experience in PostGIS but I am happy to learn it through my experience. Beyond technical skills, I thrive in collaborative environments, working closely with other developers, and product managers to deliver innovative solutions. I am continuously exploring emerging technologies and best practices to enhance performance and scalability.

I am particularly drawn to HOCHTIEF PPP Solutions GmbH's commitment to agile development within a stable corporate structure, as well as the opportunity to work on projects that drive digital transformation in urban infrastructure. I look forward to the possibility of bringing my expertise to your team.

I would welcome the opportunity to further discuss how my skills align with this role. Please feel free to contact me at your convenience. Thank you for your time and consideration.

Best regards,

Rajib Chandra Das
